PROFESSIONAL EXPERIENCE

Deloitte & Touche

Milan, Italy

- *Financial Auditor (intern), Audit & Assurance*

September 2023-March 2024

- I had several financial institutions as clients like Banks, Pension Funds, Leasing Companies and Insurance companies and I worked with them during the auditing process in the Interim and Final phases.
- The main activities I was involved were balance sheet analysis, macroeconomic analysis of the audited companies with a focus on the regulation standpoint and micro analysis of the audited companies' market in order to understand the risks to pay attention to in the auditing process.
- During the internship I worked in 5 different teams so for me it was crucial to organize the work as efficiently as I could, the rigid following of the deadlines and soft skills like presenting because I was always incentivized to find more efficient ways to do my tasks and once I found these ways I had to present them to my seniors.
